## SOFTWARE DEVELOPER

Motivated software developer with a strong focus on web development. Eager to contribute to innovative projects, learn from experienced professionals, and enhance technical skills. Passionate about problem-solving and staying up to date with industry trends, with a preference for remote work.

## SKILLS SUMMARY

- Studied multiple programming languages, including C++, Java, C#, JavaScript, and Python, along with various development technologies.
- Explored object-oriented design, software development, network security, computer graphics programming, artificial intelligence, and mobile application development.
- Completed two university courses in web development, along with online courses in JavaScript, Node.js, and modern web technologies.
- Committed to advancing web development skills, with a focus on scalable applications, backend technologies (Node.js), and frontend frameworks (JavaScript, React, HTML, CSS).
- Verified student programs for accuracy, efficiency, and compliance with assignment requirements, providing constructive feedback on code quality and best practices.
